

Thoreau Elementary School

School Improvement Plan

Annual Update: 2019-20

This school improvement plan meets the requirements of WAC 180-16-220 and WAC 180-105-020.

SCHOOL OVERVIEW

Description: Henry David Thoreau Elementary sits nestled in the woods of the Finn Hill neighborhood in Kirkland, Washington. This neighborhood is home to the majority of our 473 students who attend Thoreau Elementary. Also, included in our student body are approximately 100 students in four classrooms who travel to Thoreau from surrounding neighborhood schools to attend the Quest (HiCap) program each day. Additionally, Thoreau houses a pull-out Quest classroom where students 2nd-5th grade attend once per week for HiCap enrichment programming. The students from Thoreau Elementary progress on to Finn Hill Middle School and Juanita High School. Thoreau students bring a rich diversity of cultural backgrounds. Our students speak more than 30 different languages at home and currently 8.3% of students receive additional support as English Language Learners. Our student body is composed of 60% white students, 17% Asian students, 12% two or more races students, 10% Hispanic students, and 1% Black/African-American students. At Thoreau, we celebrate this diversity and the individual uniqueness of each of our students.

Mission Statement: The mission of Henry David Thoreau Elementary is to be a collaborative community that encourages individual growth and achievement by focusing on what is best for students. Our Vision states, “Students will be confident, engaged, knowledgeable community members, equipped for life-long learning.” We believe in the success of every student at Thoreau Elementary. We actively support each learner’s journey through classrooms that are relevant and engaging, programs of enrichment and additional support, mindfulness to social-emotional needs, and a schoolwide positive behavior support system.

⁸ Washington School Improvement Framework measures compile data across three years (2016-2018) and include both the general education assessment (Smarter Balanced assessments) and the alternative assessment for student with severe cognitive disabilities (WA-AIM). OSPI suppression rules apply to some data marked as "--" and not displayed due to privacy reasons.

⁹ Median Student Growth Percentile is calculated by ordering individual student growth percentiles from lowest to highest and identifying the middle score. Washington State defines an SGP of 1-33 as low, 34-66 as typical, and 67-99 as high.

CONTINUOUS IMPROVEMENT PRIORITIES

Our target is that all students and student groups are improving, with all gaps closing, each year. The following priorities have been set to guide us in achieving this.

Priority #1																				
Priority Area	Mathematics																			
Focus Area	Computation, Problem Solving, & Communication																			
Focus Grade Level(s)	K-3																			
Desired Outcome	85% of Grade 3 students will score At or Above Standard as measured by the Smarter Balanced Math Assessment in 3 rd Grade in Spring 2022.																			
Alignment with District Strategic Initiatives	Multi-Tiered Systems of Support - Academics (MTSS-A)																			
Data and Rationale Supporting Focus Area	<p>Third grade is the first year of state formalized math assessment. This score is a good measure of the foundational skills laid by our primary teachers. Priority #3																							

Priority Area	Social and Emotional													
Focus Area	Tier 1 SEL taught by classroom teachers in all classrooms.													
Focus Grade Level(s)	3-5													
Desired Outcome	On the Panorama survey, students who answer favorably for emotion regulation will move from 49% favorable in the spring of 2018 to 60% or higher in the spring of 2022.													
Alignment with District Strategic Initiatives	Multi-Tiered Systems of Support - Behavioral, Social and Emotional Support (MTSS-B)													
Data and Rationale Supporting Focus Area	Currently students in grades 3-5 answer 49% favorably on the emotion regulation components in the Panorama Survey. The district average is 51%. We believe with full implementation of Tier 1 SEL instruction using Second Step curriculum by all classroom teachers K-5 while supported by our school counselor, we will see this percentage increase over time.

Priority #4

Priority Area	High Levels of Family and Community Involvement	
Focus Area	Parent and community involvement on Equity Team	
Focus Grade Level(s)	K-5	
Desired Outcome	By spring of 2022, the number of staff answering favorably on the 9 Characteristics survey, High Levels of Family and Community Involvement, will increase from 85% to 93%.	
Alignment with District Strategic Initiatives	School Equity Teams	
Data and Rationale Supporting Focus Area	We currently have no parents on the Equity Team. It is the recommendation of the Equity trainers that parents be involved in this work by joining this committee.

TECHNOLOGY INTEGRATION PLAN

The Washington Basic Education Act requires schools to “integrate technology literacy and fluency” in their curriculum. The updated K-12 Educational Technology Learning Standards emphasize the ways technology can be used to amplify and transform learning and teaching.

The Technology Integration Facilitator Program (TIF) and Building Instructional Technology Plan (BIT) provide the structure and funding to support this requirement.

The goals of the TIF program are to support teachers in effectively:

1. Integrating the use of core instructional technologies within teaching and learning.
2. Utilizing digital tools to enhance the learning process for all students in all classrooms.
3. Understanding and applying the Educational Technology Learning Standards across content areas.
4. Embedding digital citizenship and media literacy within instruction.

Building administrators work with their Technology Integration Facilitator (TIF) to identify needs based on the TIF program goals and develop the BIT Plan to meet those needs. Beginning and end of year survey data informs the personalization of individual school plans.

Based on Spring data, strategic implementations and OSPI requirements, the BIT Plan will focus on the following:

- Digital Citizenship
- Integrating core instructional technologies
- Utilizing digital tools to enhance learning
- Applying Ed Tech Learning Standards
- Embedding digital citizenship & media literacy

STATE ASSESSMENT PARTICIPATION

The Every Student Succeeds Act (ESSA) requires that all schools meet at least a 95% participation rate for state assessments for all students as well as each subgroup. Schools that fall below this threshold in any group must include goals and actions the school will take to ensure 95% of students participate. The latest participation rate that has been published by OSPI for the school was for state testing in spring 2018. During that year, the participation rate was not met for ELA and not met for mathematics.

Strategies the school is using to meet participation requirements include:

- Common language on the importance of state testing is used by all schools in the district.
- Staff receive training on the administration of state assessments, including the use of supports and accommodations to ensure all students have an equal opportunity to demonstrate learning.
- Make-up testing is provided for students that miss the school’s date.
- Test completion lists are monitored by both school testing coordinators and district personnel.
- The district is using the recommended refusal procedures and form developed by the Washington Educational Research Association.

COMMUNITY ENGAGEMENT PLAN

As a district of doers, learners, and believers, our “why” drives us. We do this all-important work because we want all of our students to have equitable and quality experiences in the Lake Washington School District in order to ensure that they get to choose their futures instead of their circumstances choosing them.

Research has consistently shown that family and community engagement is key to increasing the academic success and positive connections that students have at school, especially students from groups that are demographically under-represented or those historically marginalized. Therefore, it is imperative that we consistently plan and implement strategies to engage our families and school communities in authentic and culturally appropriate approaches.

To ensure that families have the support that they need to assist their children, OSPI requires that school districts have a family engagement policy in place that applies to all families.¹⁰ The specific strategy our school is using to involve and inform the community of the School Improvement Plan is as follows:

Strategy to Engage Students, Families, Parents and Community Members in the development of the SIP	Action	Timeline
	Monthly PTA board and administrator meetings. Share ideas and gather input.	Fall 2019-Spring 2022
